

Withdrawal of eggs from the Netherlands in Germany and AB MAURI UK&I products

The following statement was released today; Thursday 14th June 2018.

With reference to the recently reported incident where eggs from an organic laying farm in the Netherlands have been withdrawn from sale in Germany, following detection of residues of the insecticide fipronil.

We can advise that the eggs used in the production of the egg powders used in AB MAURI UK & Ireland products are not sourced from the Netherlands and are not affected by this issue.
